

REDESIGNED *Upperhand™ Fishtapes*

Introducing the redesigned UpperHand™ line of fish tapes to make wire fishing easier and safer. With tape lengths from 100' to 250' and a choice of steel or nylon tape, the UpperHand™ product line offers solutions for every hand-pulling application.

- **Updated Handle Design**
Ergonomic shape provides unparalleled ease-of-use and carrying
- **Impact-Modified Housing**
Withstands drops onto concrete of 25' and more
- **Wrist-saver handle**
When the job is done, carry the fishtape off the job site with ease.

A TAPE FOR EVERY JOB

Corrosion-Resistant Plated Wire

The toughest, most durable tape for long-lasting use.

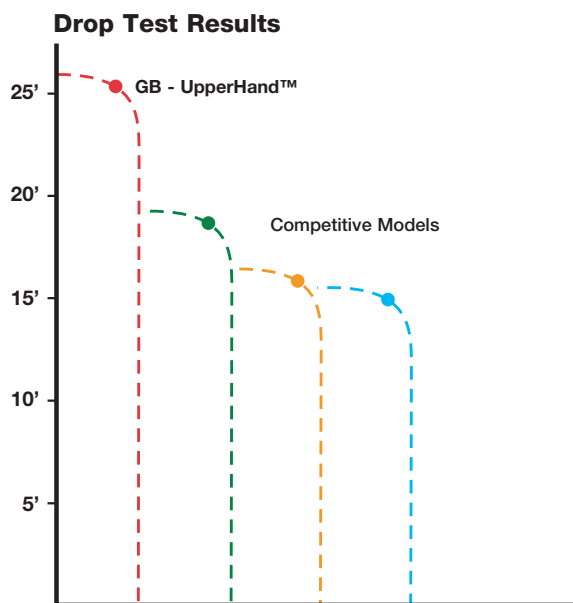

Non-Conductive Fiberglass Core with Nylon Jacket

Patented non-conductive tip and unique flat shape is easier to feed yet able to pull up to 500 lbs.

TOUGHER THAN THE COMPETITION

UpperHand's™ improved design leads the industry by withstanding 25' drop tests without breaking.

THE FIBERGLASS ADVANTAGE

The Lightest Tape Around

At just 1/10 the weight of a traditional model, the FTN-100R is the fish tape of choice for portability and ease of use.

The Easiest Tape to Fish

Use the Fiberglass UpperHand™ to gently fish wire through conduit that already contains cable. The tape's patented tip design and flat tape shape glides easily to prevent damage.

Exclusive Non-Conductive Tip

Constructed of high-impact ABS in a streamlined design, the exclusive tip pulls up to 500 lbs while preventing hang up in the conduit. Non-conductive construction prevents accidental shorting of live conductors.

FISH TAPES LIKE NO OTHER!
