

Audible Stud Seeker™

Locate wood and metal studs

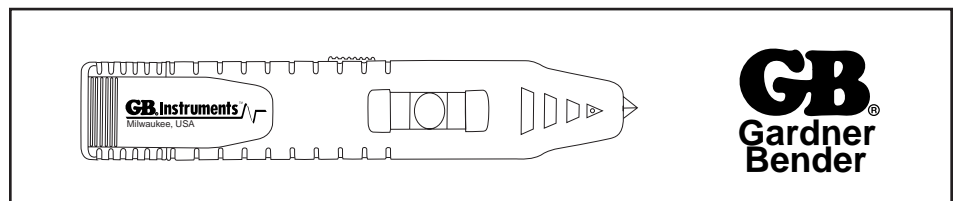

**One Year
Warranty**

Small enough to fit in a shirt pocket, Gardner Bender's innovative Audible Stud Seeker™ detects wood and metal studs and joists through drywall, plywood, paneling and flooring up to 3/4" thick. Progressive audible indicator "chirps", while bright LEDs illuminate when it locates stud edges. Metal scribe enables users to instantly mark stud edges without picking up a pencil. The built-in bubble vial assists in installing outlet boxes or hanging pictures. State of the art micro-processor circuitry assures accuracy and reliability.

- Audible, chirping indicator
- Built-in bubble vial level
- Metal scribe marks stud edge
- Bright LEDs indicate stud edge
- Microprocessor circuitry assures reliability
- Detects wood and metal studs
- Durable ABS housing
- Fits easily in a shirt pocket
