NEW

Stubby Nutdriver Set

Tightening and loosening bolts and nuts just got easier! The Gardner Bender Stubby Nutdriver Set includes 1/4" and 5/16" nut drivers in one convenient package. Both tools have corrosion resistant chrome plated shafts and a magnetized tip with a hollow shaft to facilitate working with long bolts or threaded rod. We have also added easy identification to the set with driver sizes and type clearly marked and readable on the end of the handle. This is perfect for even the messiest of tool bags. Lastly, the nut drivers in this set each have a cushioned handle for comfortable all-day use. You can't go wrong with this fantastic new duo.

Features:

- Hollow shaft for screw clearance
- Handle end marked for easy identification
- Corrosion-resistant chrome plated finish
- Magnetized tip
- Comfortable cushion grip handles

Features:

- Hollow shaft for screw clearance
- Handle end marked for easy identification
- Corrosion-resistant chrome plated finish
- Magnetized tip
- Comfortable cushion grip handles

Stubby nut drivers are great for working in close quarters!
