

**Includes 25 IDC Connectors!**

# **NEW** *IDC Crimp Tool*

**The most fully featured IDC crimp tool on the market.**

**An essential tool for datacomm applications:**

Gardner Bender's new IDC Crimp Tool and Connectors Kit includes all the features of a wire stripper, plus an IDC crimping station. Accurately crimp insulation displacement connectors without crushing them thanks to this tool's unique plated crimping station. This multi-tool features a cutting and stripping station for solid and stranded wire, wire looping holes, and bolt cutting and rethreading stations. This kit also includes 25 IDC connectors so you can immediately start adding or repairing voice and data lines.

## **Features:**

- Spring action return reduces hand fatigue
- Precision ground plier nose and wire looping holes for forming wire to fit on screw terminals
- Built-in locking mechanism for compact storage
- Ergonomic cushioned handle design

**Benefits:**

- Multi-function design is six tools in one: Cut, Strip, Grip, Crimp, Form/Loop, and Bolt Cutting
- Wire cutting and stripping station - 20-26 AWG solid wire and 22-28 AWG stranded wire
- Crimp IDC connectors
- Cut and rethread bolt sizes 6-32, 8-32

Item #	Item Description	UPC	Size	Qty/Clam	Qty/Master
