

GB[®] Gardner Bender

MEASURES TEMPERATURE
TWO WAYS:

1. Temple/Forehead

2. Behind the Ear

NEW

Non-Contact Body Infrared Thermometer

Gardner Bender's Non-Contact Body Infrared Thermometer allows for critical temperature measurements to be taken from a distance.

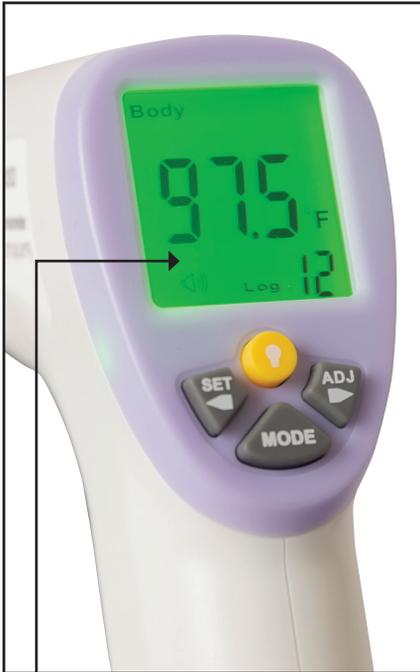

Use this thermometer to measure and accurately gauge body temperature along with other surface temperatures.

This thermometer avoids having to contact skin, making it a safe and convenient way to measure temperature and detect a cold or fever. It is perfect not only for personal use, but also at schools, businesses, or any other public event and is suitable for all ages from infants to elders.

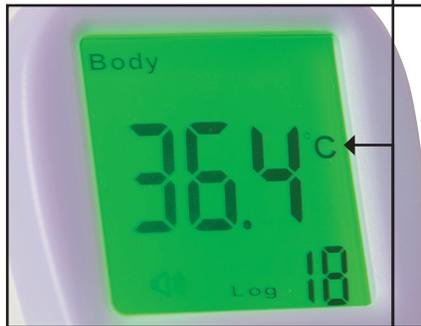

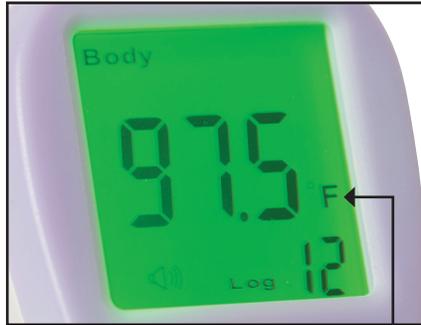

It can also be used for traditional professional, commercial, and industrial electrical and HVAC applications in any environment.

FEATURES

- Checks body temperatures from -90° F to 109° F (32° C to 43° C)
- Back-lit screen displays the present temperature measurement
- Quickly and easily provides you reliable results in seconds

Back-lit screen displays the present temperature measurement

Easily toggle between Celsius and Fahrenheit

Laser pointer to guide accuracy

SPECIFICATIONS

Body Temp. Measurement Range	90° to 109° F (32° to 43° C)
Accuracy	±0.6° F (±0.3° C)
Surface Temp. Measurement Range	32° to 212° F (0° to 100° C)
Accuracy	±1.8° F (±1.0° C)
Resolution	±0.1° F (±0.1° C)
Response Time	0.5 sec
Measuring Distance	5 – 8 cm
Auto Power Off Time	7 sec
Batteries	(2) AA Batteries (not included)
Warranty	1 Year

FEATURES:

- Checks body temperatures from -90° F to 109° F (32° C to 43° C)
- Checks other surface temperatures from 32° F to 212° F (0° C to 100° C)
- Back-lit screen displays the present temperature measurement
- Auto power-off saves battery life
- Easily toggle between Celsius and Fahrenheit
- Quickly and easily provides reliable results in seconds
- Laser pointer to guide accuracy
