

# GB<sup>®</sup> Gardner Bender

## ***Cyclone Conduit Bender***

### **Introducing our Cyclone<sup>®</sup> Electric-Powered Conduit Bender.**

The B2000 Cyclone Electric-Powered Conduit Bender is a unique production conduit bender able to bend 1/2" to 2" Rigid, Rigid aluminum, EMT, and IMC conduit with a single shoe and no extra parts. The B2000 can also bend PVC-coated rigid conduit from 1/2" to 2".

Designed to perform bends in both a horizontal and vertical position to create accurate offset bends and with the ability to make repeatable bends at the same degree. Engineered to save time while creating accurate bends with Easy-Dial Settings that make training time virtually non-existent.

Proudly made in the USA

### **FEATURES:**

- Easily lift and transport using the forklift tubes built into base
- Lift Hook for security (job-site) tethering
- Incorporates storage area for tools
- Easy dial settings
- Includes Weather-Resistant Cover

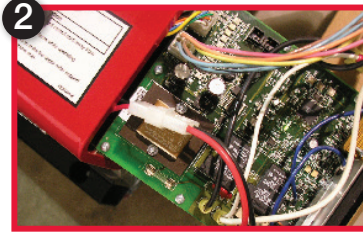

## CYCLONE® ELECTRIC-POWERED CONDUIT BENDER

One shoe bends ½" - 2" conduit with no loose parts:

- Rigid
- Rigid aluminum
- EMT
- IMC
- PVC-coated rigid (½" to 1½")
- Easily make repeatable, duplicate bends.
- Horizontal and vertical positions allow the unit to create accurate offset bends.
- Four wheels increases mobility.
- Low-volt (95), high-volt (132) automatic shut-off helps protect electrical components from voltage fluctuations.
- Resettable circuit breaker eliminates down time changing fuses.
- On/Off switch allows user to shut machine down for extended periods of time.
- Hook attachment on pendant control frees hands while working with conduit.
- Minimal training time.
- Easy setup - No leveling or homing required before use.
- Weather-resistant cover included.
- 110/115 V AC, 15 AMP 1 HP DC Motor.
- Dimensions: 47" x 33" x 43".
- Weight 408 lbs.

**Ergonomic  
Pendant Control**  
Ease of operation

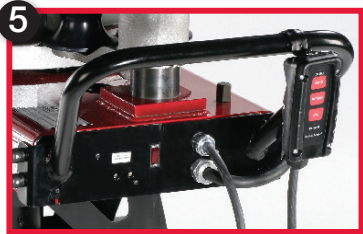

**Circuit Board &  
Circuit Verification Phase**  
Guarantees operation

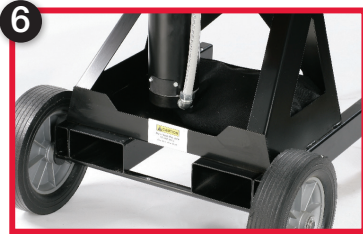

**Stronger Legs**  
Increased durability  
(10x life test)

**Larger Tires/Wheels**  
Increased mobility

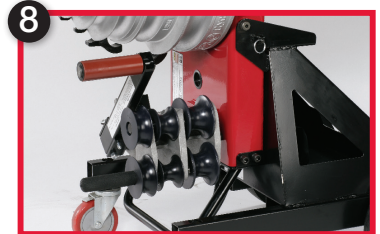

**Stronger Upright Handle**  
Ease of use

**Fork Lift Tubes & Hook**  
Allows lifting &  
transport capability

**Storage Area**  
Storage for tools, etc...  
while in use

**Central Pivot Point**  
Balanced pivoting for easy switching  
between horizontal and vertical position.
